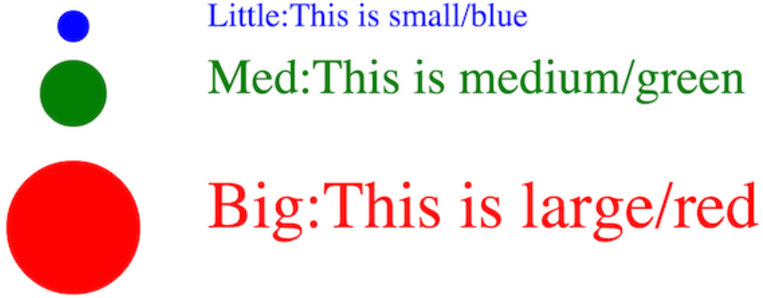
</thing>
```

Picture



Imports

```
package main
import (
    "encoding/xml"
    "flag"
    "fmt"
    "io"
    "os"
    "github.com/ajstarks/svgo"
)
```

Data Structures

```
type Thing struct {
    Top  int    `xml:"top,attr"`
    Left int    `xml:"left,attr"`
    Sep  int    `xml:"sep,attr"`
    Item []item `xml:"item"`
}

type item struct {
    Width  int    `xml:"width,attr"`
    Height int    `xml:"height,attr"`
    Name   string `xml:"name,attr"`
    Color  string `xml:"color,attr"`
    Text   string `xml:",chardata"`
}
```

Flags and Main

```
var (
    width  = flag.Int("w", 1024, "width")
    height = flag.Int("h", 768, "height")
    canvas = svg.New(os.Stdout)
)

func main() {
        flag.Parse()
        for _, f := range flag.Args() {
                canvas.Start(*width, *height)
                dothing(f)
                canvas.End()
        }
}
```

Read the Input

```
func dothing(location string) {
    f, err := os.Open(location)
    if err != nil {
        fmt.Fprintf(os.Stderr, "%v\n", err)
        return
    }
    defer f.Close()
    readthing(f)
}
```

Parse and Load

```
func readthing(r io.Reader) {
    var t Thing
    err := xml.NewDecoder(r).Decode(&t)
    if err != nil {
        fmt.Fprintf(os.Stderr, "%v\n", err)
        return
    }
    drawthing(t)
}
```

Draw

```
func drawthing(t Thing) {
    x := t.Left
    y := t.Top
    thingfmt := "font-size:%dpx;fill:%s"
    tfmt := "%s:%s/%s"
    for _, v := range t.Item {
        s := fmt.Sprintf(thingfmt,
                    v.Width/2, v.Color)
        canvas.Circle(x, y, v.Height/4,
                    "fill:"+v.Color)
        canvas.Text(x+t.Sep, y,
        fmt.Sprintf(tfmt,
                    v.Name, v.Text, v.Color, s)
        y += v.Height
    }
}
```

Sample Bullet Graph

The bullet graph features a single, primary measure (for example, current year-to-date revenue) compares that measure to one or more other measures to enrich its meaning, for example, compared to a target), and displays it in the context of qualitative ranges of performance, such as poor, satisfactory, and good.

Why I use Go

Anthony Starks

@ajstarks
ajstarks@gmail.com

```
package main
import "fmt"

func main() {
    fmt.Println("hello, world")
}
```

This is the traditional hello, world program.
It's six lines long, and imports the fmt package,
leading some to be suprised at the size of the resulting binary.

```
package main

import (
    "bufio"
    "github.com/ajstarks/openvg"
    "os"
)

func main() {
    width, height := openvg.Init()

    w2 := openvg.VGfloat(width / 2)
    h2 := openvg.VGfloat(height / 2)
    w := openvg.VGfloat(width)

    openvg.Start(width, height)                  // Start the picture
    openvg.BackgroundColor("black")              // Black background
    openvg.FillRGB(44, 100, 232, 1)              // Big blue marble
    openvg.Circle(w2, 0, w)                      // The "world"
    openvg.FillColor("white")                    // White text
    openvg.TextMid(w2, h2, "hello, world", "serif", width/10) // Greetings
    openvg.End()                                 // End the picture
    bufio.NewReader(os.Stdin).ReadBytes('\n') // Pause until [RETURN]
    openvg.Finish()                              // Graphics cleanup
}
```

We have each other

Poor

So, the next time you're about to make a subclass, think hard and ask yourself

what would Go do

Andrew Mackenzie-Ross

FOR, LO,

the winter is past,
the rain is over and gone;
The flowers appear on the earth;
the time for the singing of birds is come,
and the voice of the turtle is heard in our land.

Song of Solomon 2:11-12

Good Design

is innovative

makes a product useful

is aesthetic

makes a product understandable

is unobtrusive

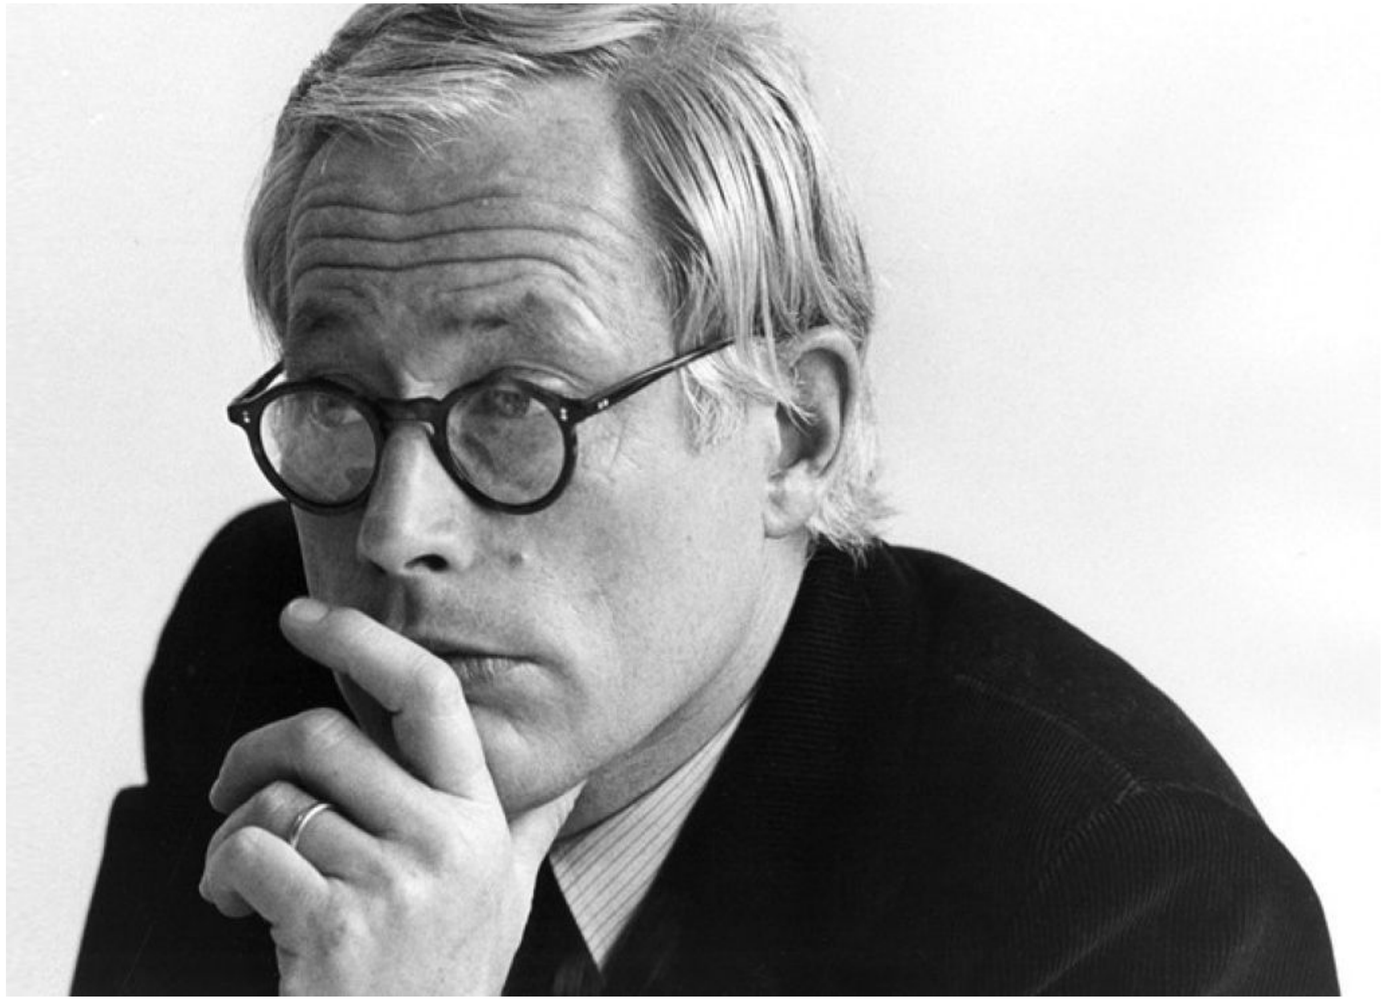
is honest

is long-lasting

is thorough down to the last detail

is environmentally-friendly

is as little design as possible



What is it about Go?

---

are you going to share the library
or just tease us with pictures? ;-)

Thompson wanted to create a comfortable computing environment constructed according to his own design, using whatever means were available.

Dennis M. Ritchie, “The Development of the C Language”

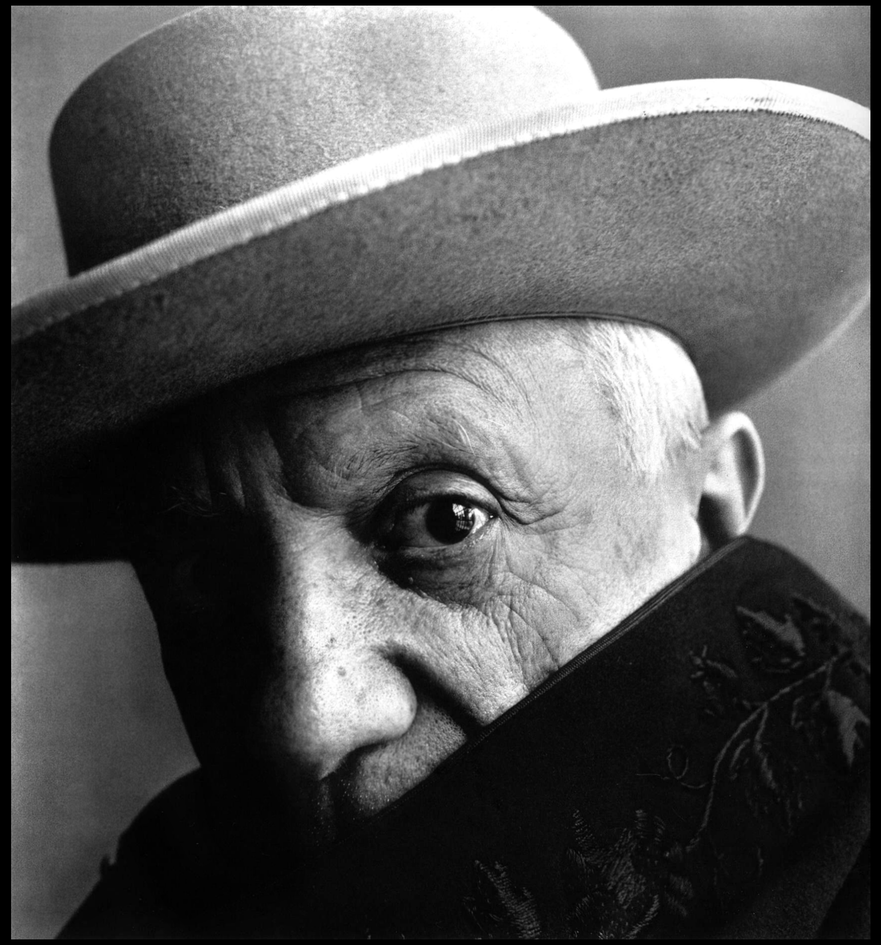
Go is not the product of a Whiggish development process. We were just trying to get something that worked for us.

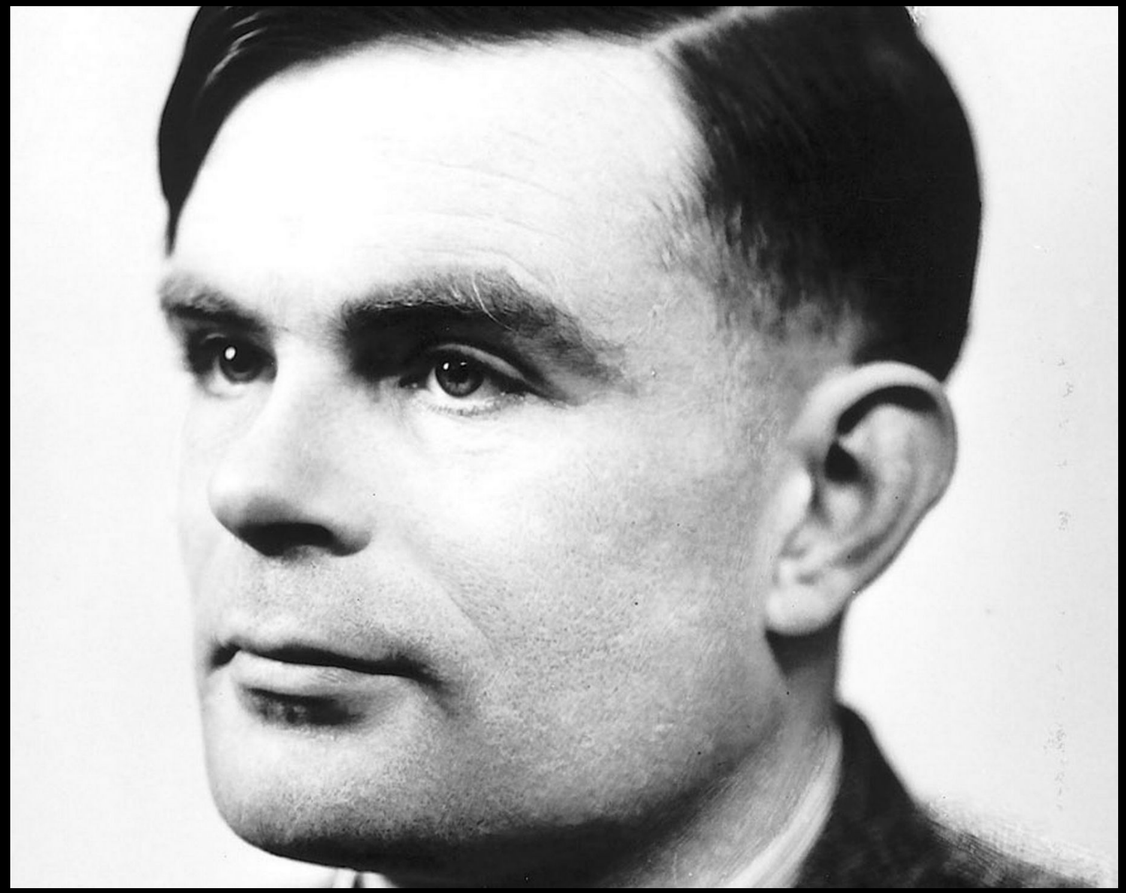
Rob Pike, “Origin of Go’s interface design”, golang-nuts

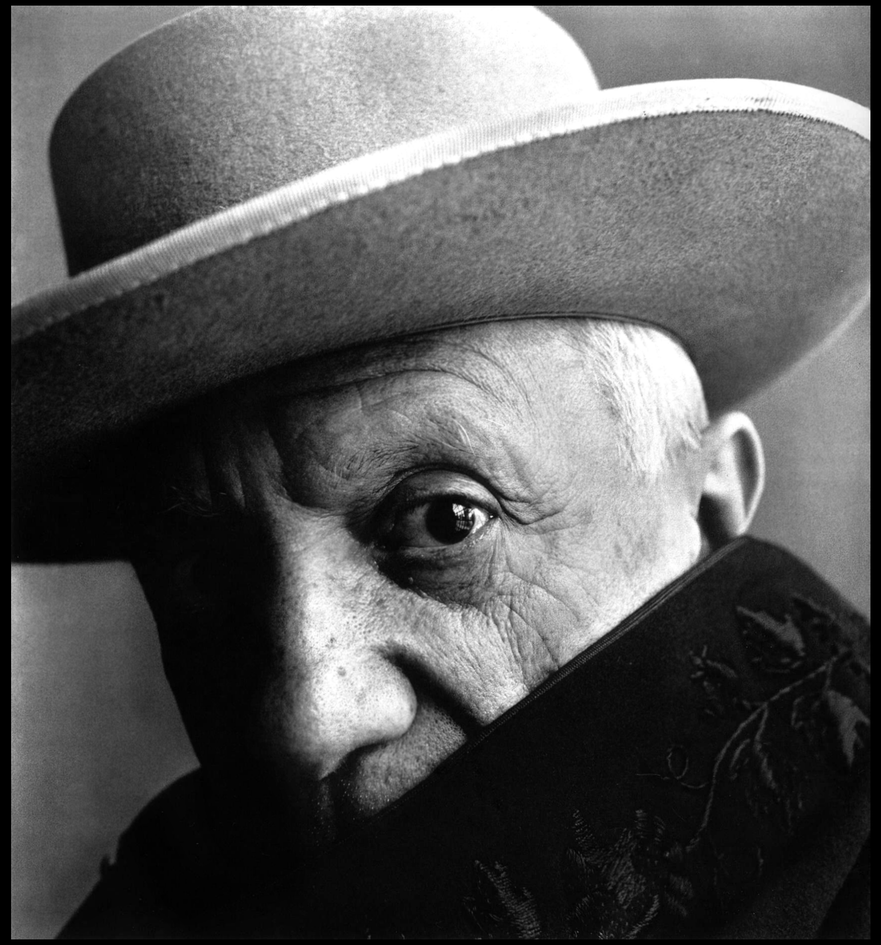
Making Tools

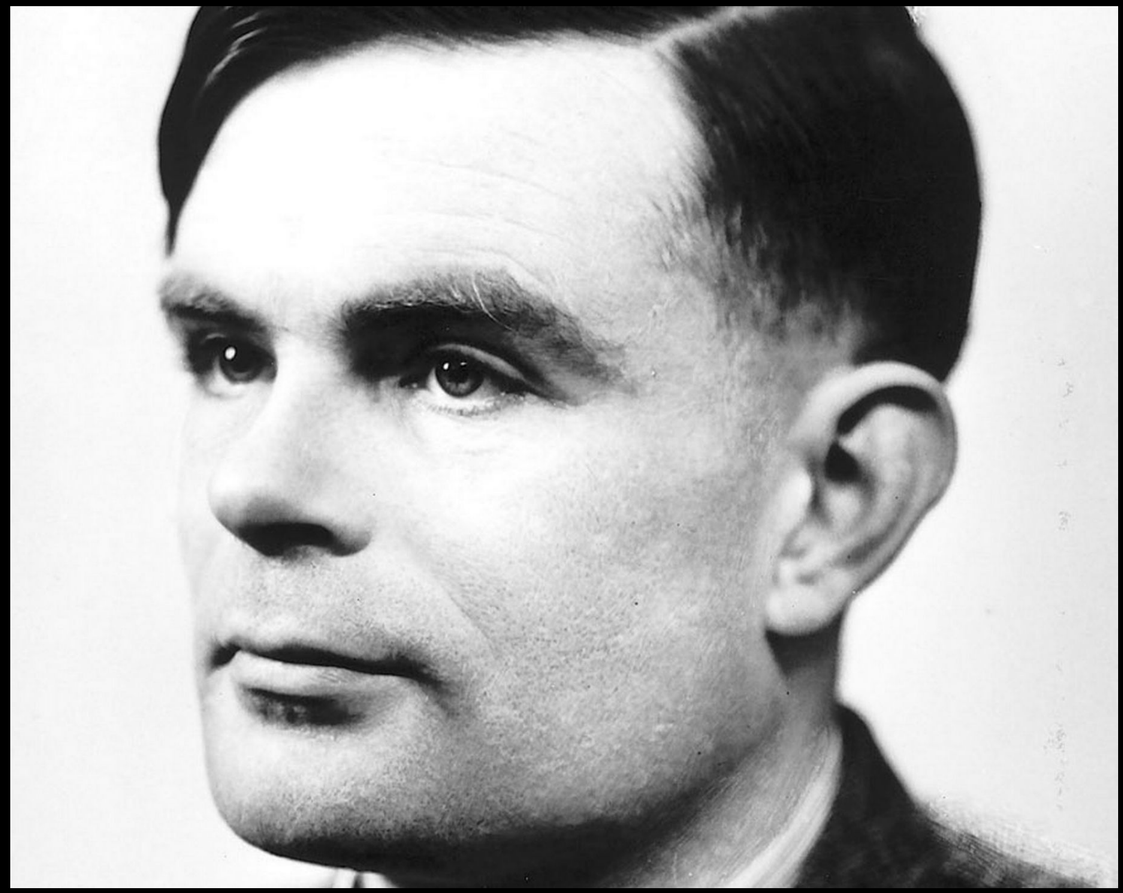
Fun

Reducing the distance from the idea to the picture









Picasso

Turing
